

## Notice on Postponement of AMTS & AHTE South China 2022

Dear exhibitors, visitors, partners and media colleagues,

Given the ongoing, complicated situation due to the COVID-19 pandemic in China, notably the cases recently detected in Shenzhen; and due to the notification issued by the Shenzhen pandemic control authorities on November 23<sup>rd</sup> 2022, we regret to inform you that the AMTS & AHTE South China 2022, due to be held on November 30<sup>th</sup> – December 2<sup>nd</sup> 2022, as well as its adjacent events, will be postponed to October 11<sup>th</sup> - 13<sup>th</sup> 2023. The events will remain at the Shenzhen World Exhibition & Convention Center.

We have worked extremely closely with partners, exhibitors, and service providers to ensure that all our Covid-19 prevention controls and measures were as robust as they possibly could be. AMTS & AHTE South China 2022 was planned to take place concurrently with other events in the electronics, display, smart manufacturing and assembly sectors, all organized by RX. Together, the eight shows were expected to attract 3,000 exhibiting brands over a huge exhibition area of 120,000 sqm all designed to deliver business value to both suppliers and buyers.

In addition, we had made huge efforts to attract trade visitors through our online and offline campaigns. For industry colleagues who may not have been able to join our face-to-face events due to travel restrictions, we had prepared livestreaming from the show floor and online match-making services for our customers to join us remotely. These services had received positive feedback from our customers. As the physical event will be postponed to next year, we will hold AMTS & AHTE South China 2022 as a virtual exhibition on December. 15<sup>th</sup> 2022.

We sincerely apologize for any inconvenience caused by the postponement of AMTS & AHTE South China 2022 and its adjacent events.

While this is incredibly disappointing, we will continue to provide services to enable business connections, new product releases, technical exchanges, transaction promotions and networking through our virtual event, as well as making our webinars, business matchmaking and exhibitor livestreaming available throughout the year. Please visit our website for our latest updates.

As the famous Chinese poem said: A time will come to ride the wind and cleave the waves, I'll set my cloud-like sail to cross the sea which raves. Thanks again for your great support and solidarity for AMTS & AHTE South China 2022. We'll grow together with the automotive engineering and automatic intelligent assembly industry and continue to promote the sustainable growth of the industry in future. And of course, we are also ready to support your business growth and personal development! We wish you and your family peace and good health, and we look forward to seeing you again next year!

Show Organizer: RX Hengjin
